## 7. Action Plan for Academic Year 2008 – 2009

Improvement Field	Weak points	Action required	Person Responsible	Completion Date
Assessment Methods	No feedback of the examination to the students, so exams can not be used for learning.	- During course design the assessment methods suitable for each ILOs must be specified and these methods must be strictly followed by examiners. - Formative exams during the term with a feedback to the students, so these examinations can be used as a method of learning.	- Faculty - Department	2011
Quality of Teaching and Learning	Students attendance at lecture are not very good	- Engagement of students from different academic years to the curriculum development	- Faculty - Department	2010
Learning resources	- there aren't laboratories - The system of maintenance and repair is not flexible enough.	-To acquire a facilities to laboratories - Maintain and repair the present equipments	- University - Faculty	2012
Course content	Gap between up-to-date information and reference text books	- add more examples. - add small task projects mainly for real world problem solving.	Course coordinator	2010
